

R4 series

Thermal-links Compliant with RoHS2

Concept
Model

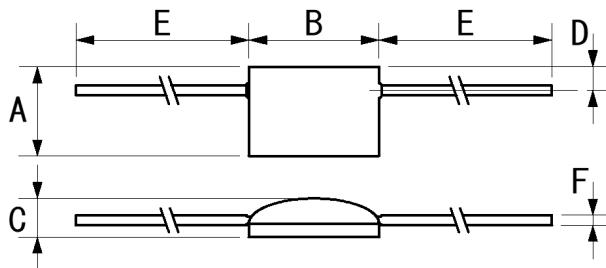

- R4 series realizes an electrical rating, DC450V although it is an alloy type thermal-link.
 - It has superior thermal sensitivity that is suitable for the overheat protection of the parts.
 - It is a non-resettable thermal-link that uses a fusible alloy for its thermal element.
 - Eco-Friendly products being in compliance with RoHS2.
- It does not contain the regulated 10 substances including lead(Pb), cadmium(Cd).
